3. PROFESSIONAL EXPERIENCE

Fresher / Entry-Level Candidate

No formal professional employment experience listed. Practical development experience is demonstrated through the projects below and MERN Stack Web Development training.

4. PROJECTS

DESI SAAJ — MERN ECOMMERCE WEBSITE | ECOMMERCE

Objective

- Build a full-stack clothing eCommerce website for browsing products and managing purchases.

Solution

- Developed a MERN stack eCommerce application using MongoDB, Express.js, React, and Node.js.
- Implemented user authentication, product listings, shopping cart, and order management.
- Built a responsive React frontend and used Redux for state management.

Key Achievements

- Delivered a deployed full-stack application with separate frontend and backend hosting.
- Integrated core eCommerce workflows including products, cart, authentication, and orders.

Technologies: React.js, Node.js, Express.js, MongoDB, Redux, Vercel, Render

ARENAHUB — GAMING TOURNAMENT PLATFORM | GAMING / TOURNAMENTS

Objective

- Create a web platform where players can register for and participate in gaming tournaments.

Solution

- Developed a MERN stack gaming tournament platform with player registration functionality.
- Implemented tournament brackets and player registration workflows.
- Built backend APIs with Node.js and Express.js and stored application data in MongoDB.

Key Achievements

- Deployed the application with Vercel and Render for live access.
- Combined frontend, backend APIs, database storage, and tournament functionality into one application.

Technologies: React.js, Node.js, Express.js, MongoDB, Vercel, Render
